

Dear Ron:

As a repeat customer for fence construction, again, it is always a pleasure to work with professional people when it becomes necessary to have a contractor undertake a project for a homeowner. I have nothing but praise for the Roberto and his crew for the redwood fence installation that was started and completed today.

When construction workers have the right tools and the knowledge to do the job right the first time, the job does get done quickly. In just six hours after arriving here, they demolished the old fence, set the steel post in concrete, built the fence and gates (2) and cleaned up the workplace and hauled off the debris, all without a hitch. Maybe the caffeine in the Pepsi I gave them at mid-morning helps but I doubt it; they are just good workers, polite, respectful and courteous.

You certainly have my permission to use me as a reference for future jobs you may be quoting and I would be proud to recommend Scripps Poway Fence Builders to my friends and neighbors who may be in the market for new fencing. As a matter of fact, one of my neighbors just up the street from my house was so impressed by the quality of work and the speed in which the job was done, and done right that they will be calling you in a few days to quote and replacement fence between them and their neighbor (much like the same requirements I had). Their names are Tom and Mary Lawler.

Again, Thank You and your crew for a fine, professional job completed on time and at budget as quoted. Based on the quality of work you provide I'm sure your business will continue to prosper and grow.

Sincerely,

Ronald J. W.
